

## **Physical Security**

Tagline: **"Secure Spaces—Protect People and Property."**

Alykas extends protection to the physical world with surveillance, access control, and facility monitoring for complete infrastructure security.

## **Secure by Design**

Tagline: **"Built Smart. Secured Smarter."**

At Alykas, security is not an afterthought, it's engineered into every layer of our IoT solutions. Our "Secure by Design" approach ensures that devices, networks, and data are protected from the ground up. We implement secure firmware, authentication protocols, and threat modeling from the earliest stages of development to minimize vulnerabilities and ensure long-term resilience.

## **Asset Management**

Tagline: **"Know What's Connected. Control What Matters."**

We provide intelligent IoT asset management solutions that give you real-time visibility and control over every connected device in your ecosystem. From tracking device health and location to automating maintenance and lifecycle management, Alykas helps you optimize performance, reduce downtime, and make data-driven decisions.

## **Data Security**

Tagline: **"Your Data, Locked Tight—Everywhere It Travels."**

Alykas ensures that data generated by IoT devices is protected at every stage—collection, transmission, and storage. We implement end-to-end
